The Honorable Richard Bloom
Chair, Assembly Subcommittee 3 on Resources and Transportation
State Capitol, Room 2003
Sacramento, CA 95814

RE: SUPPORT for Budget Request 0509-002-BCP-2019-GB for Program 0225-CAL-BIS to Make GO-Biz ZEV Unit permanent

Dear Chairs Ting and Bloom:

This letter is to express the support of the California Hydrogen Business Council (CHBC) for the budget request 0509-002-BCP-2019-GB to make the California Governor’s Office of Business and Economic Development Zero Emission Vehicle Unit permanent.

The CHBC and many of its members have been relying on the expertise and guidance provided by the unit and their staff. They have continued to promote and support both ZEV technologies, battery and hydrogen, much to our appreciation. They have helped overcome barriers for hydrogen station deployment, accelerated station buildout, and provided an important role in navigating different government agencies involved in the hydrogen and fuel cell technology space.

Making the unit permanent would help create more certainty on the future of the State’s commitment to support both ZEV technologies and to continue to break down barriers to further ZEV adoption.

CHBC therefore supports approving the budget change proposal. Thank you for your consideration.

Sincerely,

Emanuel Wagner
Deputy Director
California Hydrogen Business Council
The CHBC is a California industry trade association with a mission to advance the commercialization of hydrogen in the energy sector, including transportation, goods movement, and stationary power systems to reduce emissions and dependence on oil. The views expressed in these comments are those of the CHBC, and do not necessarily reflect the views of all of the individual CHBC member companies.
